PROFESSIONAL SUMMARY

Computer Science undergraduate at VIT Pune specializing in Artificial Intelligence and Machine Learning, with strong proficiency in Java and Data Structures & Algorithms. Experienced in developing AI-powered and full-stack web applications, including projects involving LLMs and backend systems. Passionate about problem solving and building scalable, real-world solutions.

TECHNICAL SKILLS

Coursework: Data Structures and Algorithms, Object Oriented Programming, Web Development, Database Management System, Operating System.

Languages: Java, C, Python, JavaScript, SQL.

Web Technologies: HTML5, CSS3, JavaScript, React.js, Node.js.

Database Management: MySQL, MongoDB.

Tools & Platforms: Git, VS Code, AWS.

AI/ML: Machine Learning basics, RAG (Retrieval Augmented Generation), LLM knowledge, Agentic AI.

EDUCATION

Vishwakarma Institute of Technology

B.Tech in CSE (AIML) | CGPA: 8.93/10.0

Pune, India

2022 – Present

HSC (Class XII – Science Stream)

Percentage: 82%

2022

SSC (Class X) – Kendriya Vidyalaya O.F Chanda

Percentage: 89%

2020

PROJECTS

Legal AI Judge and ODR Platform

- Developed Online Dispute Resolution (ODR) platform using Next.js 14 and TypeScript; integrated Google Gemini AI for parsing legal documents and providing insights.
- Built secure case management dashboard with evidence handling and role-based access control.
- Implemented authentication with NextAuth.js and used Prisma ORM with PostgreSQL/SQLite for reliable data storage.

Pseudo Airbnb

- **Technologies Used:** HTML, CSS, JavaScript, Node.js, MongoDB, MVC architecture.
- Developed a full-stack tour destination website using the MERN stack.
- Implemented MVC pattern resulting in clean, maintainable and easily extensible code.

Medicine Inventory

- **Technologies Used:** HTML, CSS, Python (Flask), MySQL, MVC architecture.
- Developed a web application for mapping medicines with their generic and brand names.
- Implemented MVC pattern ensuring proper organization, maintainability and ease of changes.

CERTIFICATIONS AND ACHIEVEMENTS

- AWS Educate Machine Learning – Amazon Web Services.

- AWS APAC – Solutions Architecture Job Simulation from Forage.
- Oracle – OCI Generative AI Certification.
- 200 + questions on leetcode
